PHOTOCHROMIC

REVEAL THE INVISIBLE WITH THE BEST LENS IN THE MARKET

Searching for a competitive advantage, superior protection, or an extraordinary visual experience? We thought so. That's why we created Phantom, Bollé's first photochromic lens with phenomenal optical clarity.

VOLT+
HIGH CONTRAST ENHANCED COLOUR

HIGH CONTRAST

EXPERIENCE THE POWER OF COLOR WITH AN EXCEPTIONAL HIGH CONTRAST FILTER

To see colors like never before, you need to test colors like never before. Which is why Bollé used artificial intelligence to evaluate over 20 million color enhancement possibilities. In the end, only one formula provided an uncomparable color experience and it's so unique, it is patented. It's called Volt+ and it now establishes a whole new standard for high contrasts lenses.

POLYCARBONATE

CLASSIC

A GOOD VISIBILITY WITH 100% UV PROTECTION

A standard polycarbonate lens, for good visibility and protection.

OTHER TREATMENTS

TREATMENTS & COATINGS

OLEO/ HYDROBIC

Our outer oleo/hydrophobic coating makes it nearly impossible for foreign bodies to latch on to your lenses. Available on all Bollé HD Polarized models and Phantom lenses.

ANTI-FOG

Unlike the other anti-fog coatings, our anti-fog coating incorporates permanent resistance to fogging but also scratches and chemicals. The treatment is applied to the lens (no spray, no dip coating) for retained properties even after repeated washing and years of use.

ANTI- REFLECTIVE

Light reflected on the inside of the lenses can harm your eyes. That's why our scientifically-engineered anti-reflective coating is applied to the inside of 6 base HD Polarized Bollé lenses.

FLASH MIRROR COATING: MASTER BOTH SUNLIGHT & STYLE

Improve your look and your vision with a flash mirror lens. Mirror coating ups your style while reinforcing filtration.

FOR SPORT, FOR LIFE.

NEVER LOSE IT AGAIN

Never lose your sunglasses again: Bollé brings new floating technology to its outdoor range. Derived from ones of our most popular lifestyle models, BRECKEN & HOLMAN have been paired with innovative floating features for those not afraid to get wet. Designed to stay afloat whether you are in the sea, on a lake, or in a pool, you'll never lose your shades again with this floatable BRECKEN & HOLMAN version. Air bubbles inside the temples for BRECKEN, or full temple construction in buoyancy material for HOLMAN, both styles come standardized with Bollé's first class HD Polarized lenses. Key features also include an oleo/hydrophobic coating to keep water drops away, and an anti-reflective treatment efficiently blocking the sun's glare.
